Subject: RE: Draft DQOs for ASPECT

The failure was on the Government side, not the ASPECT side. Just saying ☺

Hi David,

Internet failure caused the delay.

Attached is a table containing all the positive hits from Flights 1 -19. We're scrubbing/updating the FTP site to reflect only positive detections associated with the ASPECT DQO list of compounds, with the exception of Peroxide and 1-3 butadiene.

Call me with any questions or comments on this table.
We will update the table from today's flights (#20, #21) after we get the data from the aircraft.
It will be ready tomorrow morning.

Subject: FW: Draft DQOs for ASPECT

We believe that this is final at this point. I would like to have you submit to Joe Schaefer.
